

# Meeting Agenda: Weekly Mentoring Meetings

Location: G7 Lounge

Date	11/21/13, 12pm
------	----------------

## Topics to Discuss:

- Review Demo
- Discuss Current Application
- Discuss Scope and Implementation Plan for Final Application
- Heroku Issue
- UI Design Questions
- Open Questions

## Meeting Notes:

- Have one person manning the website, another speaking during the demo.
- App
  - Editing -- we don't label the form inputs. Have the labels outside. Needed to delete text to figure out the labels
  - Code -- looks reasonable. Remove large sections of commented code.
    - Rush Controller -- a path is hard-coded in. Don't do that.
    - Comment is a method in the Rushee controller. Seems fine.
    - Hard Link -- make a path entry.
  - Presentation Mode / CSS in general
    - Little things matter. Padding.
    - Standardize picture size
  - Good flow of website
- Moving forward: Add cherries to the top
  - Events
  - FB integration
    - Hard
  - Emailing Gems
  - Add picture by URL
  - filepicker ink io
  - pony-something
  - Figure out extent of social media integration
    - e.g. Facebook - only photos?
  - How will mobile be used
    - Is app only used during rush meeting?
    - Or do you need to update rushees mobility?
    - Or just view their information?

- Heroku
  - Delete copy of repo
- CSS
  - Colors / fonts can be better
  - Popups suck. Style them if you have them.
  - Photos are all different sizes -- make uniform
  - icons?
    - font-awesome
      - okay to use CDN
  - Combine different views?
    - Rushee profile with presentation
  - presentation mode
    - add arrows to presentation mode
    - Bullet points Don't look good.
    - buttons instead to links
