

Meeting Notes 4

Date	11/11/2013
------	------------

- Critique Response
 - Need to make clear if the app is designed to be used by one fraternity or multiple fraternities
 - Update design doc to reflect this decision
 - Specify that the app is an **internal** tool to track Rushees - not to organise and create events - clarify the goal of the application
 - Need to decide if brothers get profiles as well
 - Decide who can make what changes for the MVP
 - Need to explicitly define what a vote is
 - Social Media is only used for getting content
- Updated Design Documents to reflect Critique
- Began Drawing Wireframes
- Database Tables to Make
 - Brother Model (Devise gem takes care of password / email)
 - STRING firstname
 - STRING lastname
